

The Army Historical Foundation

Our Mission Continues

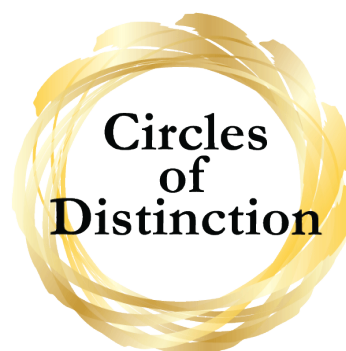

Please help us share the story of America through the eyes of the American Soldier and join our Circles of Distinction.

The Foundation's top supporters are the Circles of Distinction donors whose strong support has helped the Capital Campaign to raise the funds to build the National Museum of the United States Army.

We invite you to join this exclusive group of commitment individuals, foundations, and corporations. By joining our Circle, your name will be added onto the massive granite wall in our Museum Lobby.

Monetary donations start at \$50,000 and go up to beyond \$5,000,000. The donors are listed on the wall by financial commitment.

The Army Historical Foundation is honored to be a part of bringing a new history destination to the world, but our mission is not complete. The fundraising efforts continue as we open to the public and our vision is focused as the Museum's foundation.

Be a part of our circle.

A look inside...

THE GALLERIES

The **Fighting for the Nation Galleries** includes exhibits dedicated to every major period in American history—Revolutionary War, Westward Expansion, Civil War, WWI, WWII, Cold War, and the Global War on Terror.

The **Army and Society Gallery** will be a standout feature of the Museum that explores the symbiotic relationship between the Army and the American people.

The **Soldiers' Stories Gallery** will tell the personal accounts of men and women, providing an invaluable perspective on how much our country owes to its Soldiers.

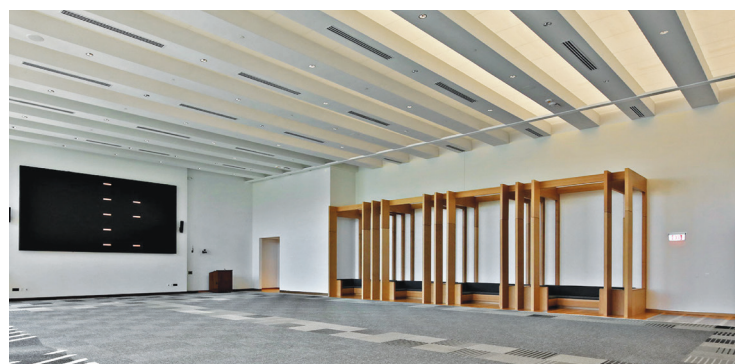

THEATER

Our 306-degree theater offers a multi-dimensional immersive experience to introduce you to the American Army.

EVENT SPACES

Need private space for events, activities or meals? The Museum will have both indoor and outdoor spaces that can accommodate your group, during or after Museum hours. Our in-house caterer will serve both the Museum café during operating hours, as well as any private meals for your group, that can be tailored to your budget.

EXPERIENTIAL LEARNING CENTER (ELC)

The **Experiential Learning Center** (ELC) will be a unique, state-of-the-art interactive resource center featuring geography, science, technology, engineering, and mathematics (GSTEM) educational programs. Perfect for kids, school groups, and corporate team building, the ELC will be complete with classroom space and simulated rescue mission activities.

PARTNERSHIP OPPORTUNITIES

To learn more about being a member of the Circles of Distinction, please contact Julie E. Kaplan, Assistant Vice President of Development
